

AST i-Prox Product overview

AST i-PROX is an integrated solution, enabling efficient management of;

- Door Entry Systems
- Access Control Solutions
- Advanced Key Safe Solutions
- Electronic Communal Entrance Notice Boards

AST i-Prox can be integrated with existing systems or used as stand alone solution. AST i-Prox solutions can be managed in one of two ways.

Read/Write Communication

Information can be updated on the 'site controller' by pre-programming keyfobs/ remotes to work as new or replacement fobs/ remotes. This solution is suitable for use with;

- Access Control Key Fobs
- Access Control RF Remote Transmitters

3G GSM Communication

Using 3G Communication, information can be efficiently managed across multiple sites. Updates can be made instantaneously via a single internet based portal, which can be managed on your behalf by AST Ltd, and numerous activity/access logs are available for download. This solution is suitable for use with;

- Door Entry Systems
- Access Control Solutions
- Key safe Products
- Electronic Notice Boards
