

AST Communal Mail Boxes

AST
LTD

AST Mailboxes are designed with the end user in mind, ensuring safe and secure means of receiving mail. There are a number of key benefits to installing an AST mailbox system.

Features & Benefits

- All mailboxes are suitable for internal & external use
- Stainless Steel hinges and fixings ensure optimal durability
- Each mailbox flap has a gasket seal to guarantee water tightness and reduce noise.
- different levels of security against the fishing of mail is on offer
- Most mailboxes are equipped with a flap preventing the entry of dust and other particles
- Each security lock is supplied with 2 numbered keys and perspex nameplates allowing information to be easily amended when mailbox owners change
- To ensure the mailbox system ties in with their surroundings, a number of additional features are available such as engraving, larger flaps, grilles and different finishes: powder coated enamel, anodised aluminium and stainless steel.

AST Communal Mail Boxes

AST
LTD

In situations where there is not enough wall space, the wall very deep or the mailboxes are simply required to stand alone, the freestanding range provides a number of well-designed solutions to meet these requirements. The wide choice of surrounds and frames allow the units to be integrated with the décor of the building.

Freestanding & Wall Applications

The mailboxes and other components can either be made of electro-galvanised steel with door and flaps in aluminium or in stainless steel and take standard A4 size mail.
